New York, Sept. 2—On the site of the old "House of Ail Nations." in Thirty-second street, west of Brendway, in its time one of the most notorious resorts New York has ever known is soon to be constructed what its projectors say will be not only the highest hotel building in the world, but in every respect the most comprehensive and invarious that money and modern ideas can achieve.

It will tower skyward forty floors, its extraordinary size being designed to meet the tremendous inrush that will come from the new terminal of the Penusylvania Railroad, which, when finished, will be confirmed in that church.

Aftert J. Adams, formerly known as the Policy King," who recently went to Mexica, asying he would spend the remainder of his days there and devote his large fortune to investment purposes for the benefit of his country, is at the head of a syndicate that will conduct the operation, which has been capitalized at \$8,00000.

There will have an acided sacredness and value to you as a faithful child of that church because it has a Cardinal's blessing."

Small investments, large returns, from Republic Want Ads.

Ten Violate Illinois Game Law. REPUBLIC SPECIAL Springfield, Ill., Sept. 2.—Ten convictions for violations of the Illinois game law have been reported to State Game Com-missioner J. A. Wheeler in the last week. The offenders are: Charles Sande, Rock-ford; Robert Mason, Warsaw; Giatana

Her home was then in Atchison, Kas., where she lived for thirty-

Mrs. Shook, who is, without doubt, the oldest woman in Missouri, was born in Kentcky in 1899, but cannot recall the name of the town, as she was brought by her purents when she was but a small child to Glasgow, Mo., where she lived until after her marriage. Her father was a cabinetmaker, and among her most treasured possessions is a chest of drawers made by him and given to her as a wedding gift. Mrs. Shook in turn gave this chest to her oldest daughter, Gabrielle, when she was married, but at the death of the daughter the chest once more became the property of Mrs. Shook and occupies the place of henor in her bedroom, no amount of persuasion being able to make her convert the treasured helf-loom into a more modern place of furniture.

After she passed her one hundredth blithday Mrs. Shook began making her burial clothes and now every piece is finished and laid away for use. Mrs. Shook scatters much sunshine around her and it is hoped that many years will yet pass before she has use for her burial garments.

Springfield, III. Sept. 2—What is believed to be a movement on the part of the United States Government for the general prosecution of the promoters of "getrich-quick" schemes and fraudulent land, oil and imfining stock agents is now in progress in Illinois Seweral mysterious investigators, bearing all the marks of Federal comployes, are canvassing the length and breadth of the State, advantating evidence of the workings of various concerns whose standing, or the character of whose business, places them under the ban of suspicion.

Several of these detectives have come to Springfield, and in nearly every instance they have come to consult the records in the office of the Secretary of State with the evident purpose of ascertaining the corporate status of the concerns in which they are interested.

These agents have been particularly sollicious regarding the use of the mails by these concerns, and wherevel posethle, have supplied themselves with copies of documents and letters that have been carried through the mails.

None of these strangers has seen fit to disclose his identity or the object of his investigation to the Secretary, or any of his office force. As the records in the office are public property, any citizen may examine them as his pleasure but the unusual movement in this direction has convinced those familiar with the situation that some unusual procedure is contemplated.

All of these investigations have been all of these investigations have been induced the least search of the situation that some unusual procedure is contemplated.

Sedalia. Mo., Sept. 2. Israel Rhoads, a farmer living eight miles north of here, was injured by a westbound Missouri

a subject that is of vital importance, not only to your own happiness, but to those who are near and dear to you. The subject is health. We want you to come and let us talk to you face to face, and talk plainly. We make no charge for consultation.

Variencele—The word implies an enlargement of the veins of the seriotum and spermatic cord. Many times the distension of these veins takes place so slowly, and produces so little inconvenience, that it is not detected until more serious conditions are involved. Our treatment is entirely our own, and usually removes this condition without the danger, pain and inconvenience attendant upon the use of the knife.

general health is usually not much impaired, especially in the first stages. It is usually brought on by one's own carelessness. If there are symptoms of failing power and you realize that you are getting sexually weak, your first duty should be to consult us. We will bring the sparkle back to your eyes. We know how. We will develop you so that you will take on repewed activity and force.

Contagious Blood Poless. This loathsome disease, hu-miliating and ofttimes deadly, cannot be trifled with Don't waste time on mercury or hot baths. We can eradicate the poisonous germs from your blood and put it in a condi-tion so that your life will be a blessing instead of a curse to you. All and more, we promise to show and prove to you, if you will give us the opportunity, that we can cure and make you a man among men. We will make you clean and whole and will save you from a lingering death. November 2004/19 Weakness of the nerve centers, censequent upon the wear and tear of modern life, or dissipation, etc., soon results in physical bankrupter. The symptoms of this disorder are so widely known that it seems uscless to enter into their general discussion. Our treatment is original with us and reaches the very seat of the trouble, wholly restores your youthful vigor, and makes a strong, healthy man of you. Nothing can be more dear to a man than his manhood, and it is your own fault if you lot this priceless possession slip by you. If you have spent the forenoon of your life in misery, look up and let us cure you so that your later years may be full of happiness.

Why will you suffer with that nerve rack ing pain of rheumatism, when you can so easily be freed from it? Rheumatic troubles often bring on many compli-cations. Kidney trouble usually accompanies this condi-tion By our treatment the uric acid is eliminated from the blood in place of letting it deposit in and around the joints, thus you avoid stiff, swollen and painful joints.

To those out of town. Those living outside of St. Louis should write us for our Self-Explanatory System Blanks, and if they will write us fully, we will send the blanks most suitable to their case.

Pay when cored. We do not ask you to take chances for a dollar need be paid until a complete cure has been

len't it at least worth while to consult us? That will cost you nothing.
